

First College Level Physics Olympiad 2019

March 30, 2019, 12:30 pm---3:30 pm

All students in their freshman, sophomore, and junior years at area colleges and universities are invited to participate in this competitive event, hosted by the School of Physics and Astronomy at the Rochester Institute of Technology.

- Concurrent participation in RIT college level Math Olympiad is allowed.
- No travel! Just take the exam at your college or university.
- Exciting prizes for the top finalists, awarded at RIT's campus during a separate event!
- Certificates of participation for all students who did not place in an award-winning category.
- Moderate flexibility in taking the exam the previous day.

Application:

The mathematics or physics instructor of your school should contact Dr. Vivek Narayanan at vxnsps@rit.edu with the following details: Name of school, list with names of interested students (approximate list OK). Please use "Physics College Level Olympiad 2019" in your subject line. *There is no formal application process beyond this!*

Details of the administration of the exam will be supplied to the instructor at a later date.
