

RIT Observatory Proposal Form: Spring 2010

The deadline for proposals is Thursday, April 15, 2010.

Personnel

Target(s)

Include a table showing the position and magnitude of each target. Attach a finding chart for each object, with the target clearly indicated.

Equipment

List telescope, camera, filter and other requirements.

Times and Dates

The period available is Apr 18 - May 7, 2010. Consult the Observatory web page for dates of Open Houses, which take priority over scientific work. Indicate below any special times which are required for your work.

Describe how many images you will need, and over what sort of time period.

Scientific Justification

Attach additional sheets as necessary.
